

# HELROM

## Trailer Rail

### Sustainable truck trailer transport Düsseldorf — Budapest

Helrom offers flexible and reliable intermodal transport of truck trailers. Without the use of special terminals, our technology enables a fast and uncomplicated shift from road to rail.

This allows freight carriers and forwarders to reduce CO<sub>2</sub> while benefiting from economic and social advantages.

#### 90% carbon reduction

Support your customers in the immediate decarbonization of transport logistics.

#### No investment required

Use intermodal transportation without additional investment in your existing fleet.

#### Optimal asset utilization

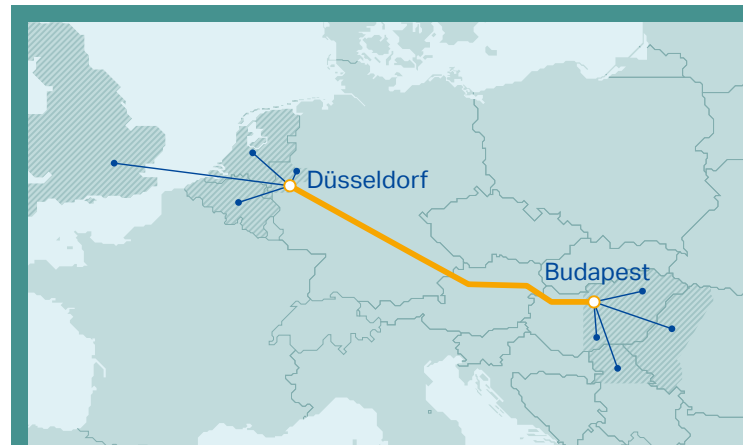

Maximize the use of your existing drivers and tractor units.

#### Service quality

Same quality as road transport – transit times under 30 hours, daily departures, punctuality.

#### Collaborative approach

Together we deliver outstanding results for your customers.
